FIELD GUIDE

SPRING 2018

ALWAYS BE READY®

A man with a beard and short dark hair is climbing a grey rock face. He is wearing a bright blue jacket and a large black tactical backpack. He is smiling and looking towards the camera. His right hand is gripping a rock ledge. The background is a blurred view of more rock formations.

READY FOR ANY MISSION

The right mindset, training and gear is what separates those who are ready and those who are not. Ready to help those in need, ready to protect and serve, and ready to crush goals. 5.11® embodies this mindset of preparedness. We make the gear for those individuals who will always be ready for any mission, for every adventure.

TRAIN AS YOU FIGHT

Always train as you fight. The guiding principal for keeping your skills sharp and ready to be called upon in a moment's notice. From increasing your accuracy or improving your draw, elevate your skills through proper training and qualified instructors.

DEFENDER-FLEX PANT

Crafted with a lightweight Cavalry Twill cotton/polyester blend, with just enough elastane, the Defender-Flex pants are made to keep their shape with style. The five-pocket styling and soft fade finish look sharp, and the back mag pockets mean you'll always be ready. Available in Slim or Straight Fit.

EXPERT TIP

Slow is smooth, smooth is fast. Practice run-and-gun drills at half-speed until you've got the control you need to get on target.

5.11 STRYKE® PANT

The tactical pant that set the bar for all others. This classic pant performs at the highest level and ensures you can focus on other mission critical aspects. It's hard to just own one pair of these.

\$74.99

EXPERT TIP

To improve your marksmanship you should be mindful on how you are “pulling” the trigger. It’s important to squeeze the trigger as opposed to jerking the trigger. This squeezing affect minimizes muzzle rise (or drop) and allows more hits on target.

When carrying a firearm you should also carry items to stop bleeding. Items can include a certified tourniquet, blood clotting materials, latex free gloves, medical shears, medical tape and gauze. Also, seek certified medical training for treating wounds and proper use of medical supplies.

TACLITE® M-65 JACKET

A classic done the 5.11® way. We built our M-65 with features that work in today's world. We also upgraded the fabric to our innovative TacLite® with Teflon® fabric to add more versatility to this classic.

EXPERT TIP

Keep that head on a swivel. When working in unsafe environments, it's paramount to keep your eyes and ears open. Always look for the out of ordinary and always have a plan. Also, don't look so tough, use a smile to disarm and disorient others but be ready to take action if there is a need.
